

## GEOSS Workshop XXVIII: Health and the Environment.

**Venue: World Metrological Organization (WMO), Geneva, Switzerland**

Date/time: Tuesday July 7th Through Thursday 9th, 2009

Fee: free; registration required.

This workshop will focus on advancing the development of standards and methodologies for integrating global public health information with environmental observations to improve health decision-making at the international, regional, country and district levels. The workshop will provide a forum to review existing systems, tools, and best practices in this domain, and to identify collaborative operational projects that will address high priority health needs. Particular emphasis will be on improving the collection and distribution of coordinated epidemiological and environmental information to meet the diverse needs of the health community.
