

IEEE Global Humanitarian Technology Conference (GHTC) October
31 – November 1, 2011

[Virtual Online Sessions](#)

The IEEE Global Humanitarian Technology Conference (GHTC) is being held on 31 October - 1 November 2011, in Seattle, Washington. The inaugural IEEE Global Humanitarian Technology Conference provides the perfect venue for anyone involved in humanitarian projects to join their peers. The Conference will bring together members of the engineering community, technology leaders from industry, researchers from academe, leaders from government agencies, representatives from NGOs, funders and others interested in how technology can be used to advance humanity. The conference will include the areas of:

Health, Medical Technology and Telemedicine
Disaster Warning and Response
Water Planning, Availability and Quality
Power for Off-Grid Users
Power Infrastructure/ Renewable/Sustainable Energy
Connectivity and Communications Technologies (data/voice) for Remote Locations
Educational Technologies
Agricultural Technologies

For more information, see the conference web site at
<http://www.ieeeghtc.org/index.html>.

You can attend selected sessions via the web on Monday and Tuesday, October 31 and November 1 from 10:30AM until 6:00PM Pacific Daylight Time (17:30 – 01:00 UTC). The sessions selected will be announced on the web prior to the conference.

Access to the sessions on Monday, October 31 is:

<https://iceo.webex.com/iceo/j.php?ED=158353782&UID=480449527&PW=NN2VmMGM2NGE2&RT=MiMO> .
Meeting Number: 797 521 660 and the Meeting access: GHTCvirtual1

Access to the sessions on Tuesday, November 1 is:

<https://iceo.webex.com/iceo/j.php?ED=158353797&UID=480449527&PW=NMWM2MGRhMzE4&RT=MiMO> .
Meeting Number: 799 575 390 and the Meeting access: GHTCvirtualday2

There is no charge for participation. The virtual sessions are not interactive and no questions can be asked of the presenters.
